SUMMARY

For two decades I've built and led design across large-scale products, most recently defining the UX strategy of a B2B analytics platform through its shift to a PLG model and AI-native transformation. My organizational focus now is the seam where AI is reshaping how Product, Design, and Engineering work - rebuilding design processes, collapsing the sequential handoffs between them, and compressing the delivery cycle. Background spans enterprise SaaS, fintech, and consumer tech, anchored by roots in psychology, marketing, and a scientific mindset.

EXPERIENCE

Product Design Director | 2021 - present

Sisense | B2B2B/C, BI & Embedded Analytics; 500+ employees

Lead Product Design across the entire product portfolio, reporting to the Chief Product House Officer (CPHO). Own the design function end to end - operating model, hiring, budget, design strategy, and input into product strategy - through a lean, multidisciplinary team covering UX/UI, research, and design systems.

- Lead design for the company's two defining shifts - a move to Product-Led Growth (PLG) and the integration of AI across the product - shipping an AI assistant and a self-service Trial, with a platform-wide information architecture overhaul underway.
- Launched a cross-functional frontend standardization and AI-assisted automation initiative to accelerate delivery without sacrificing consistency or quality.
- Built, led, and evolved the design organization through successive cycles of restructuring and rebuilding.

Lead Product Designer | 2020 - 2021

Sisense

- Led design for the platform's most complex product areas, raising consistency and quality across the experience.
- Directed the build of the design system and its component-and-style library, establishing a shared foundation across product teams.

Senior Product Designer | 2018 - 2020

WalkMe | B2B2C, Digital Adoption Platform; 500+ employees

- Owned end-to-end UX/UI design of the WalkMe Mobile platform, later leading major UI improvements to the Core product.
- Redesigned the WYSIWYG editor, increasing user workflow efficiency by 800% and establishing market leadership in flexibility and functionality.
- Designed a further-optimized editor that lifted productivity by 150%+ for users with limited technical and design skills.

Principal Product Designer | 2015 - 2018

Smartlend | B2B, B2C, Fin-Tech; 20+ employees

- Led the end-to-end product design lifecycle across the company's B2B and B2C products, from research to high-fidelity delivery.
- Designed a POS-terminal and mobile application that onboarded low-skilled users with minimal retraining.
- Increased conversion by 107% and cut bounce rate by 64% at a critical stage of the user journey.

Design Team Leader, CRO Manager | 2012 - 2015

Toyga | B2C, Fin-Tech; 200+ employees

- Led the design team, raising the performance KPIs of its creative output.
- Created high-converting designs that generated 400k+ leads and ~\$12M in revenue (~40% of annual revenue).
- Lifted landing-page conversion by 115% on average (up to 482%) through systematic CRO.

Earlier career (2002 - 2012): web, brand, and UI design across agencies and independent practice.

SKILLS

Design Leadership & Strategy: UX Strategy, Product Strategy, Design Operations & Operating Models, Team Building & Hiring, Cross-functional Leadership

Domain & Technology: AI / Generative AI (in product & process), Product-Led Growth (PLG), Enterprise SaaS, BI & Analytics

Systems & Practice: Design Systems, Information Architecture, Interaction Design, Design-Engineering Collaboration, Design Thinking, User-Centered Design (UCD)

Research & Optimization: User Research, Usability Testing, A/B Testing & Conversion Optimization (CRO), Product Analytics

EDUCATION

MSc in Biotechnology, State University of Moldova, 1995 - 2000

Machine Learning, University of Washington (Coursera), 2018

Introduction to Entrepreneurship for IT Projects, Microsoft Academy, 2015

LANGUAGES

English (Full proficiency), Hebrew (Full proficiency), Russian (Native), Romanian (Intermediate)
